SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE.

- Christiansen and Meyer marine engines of 2,500 BHP at 90 rpm are now being produced in Poland. These engines are being fitted into the DONBAS class vessels for the USSR as well as into the KOLNO class, of which the first, MALBORK, is already in commission. The KOLNO class vessels, however, have turbines different from those of the DONBAS class vessels.
- The present shipbuilding program provides for seven vessels of the KOLNO class to be built for the Polish merchant marine.
